DETAILED ACTION

Allowable Subject Matter

2. Claims 1,5-12,15-17,20-26 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 10, 15, 20, 23, The prior art of record considered alone or in combination neither anticipates nor renders obvious a method of location determining system comprising a wireless communications system, a first GPS receiver in a fixed location relative to base station and a combiner to combine said local error difference with a raw GPS location signal determined by said mobile device to produce an error corrected GPS location signal accurate to within a few meters, and a transmitter for transmitting said error corrected GPS location signal from said mobile device during a telephone call.

The prior art of record provided numerous teachings of location determining system comprising a wireless communications system, a first GPS receiver in a fixed location relative to base station. However, the prior art of record failed to specifically disclose a combiner to combine said local error difference with a raw GPS location signal determined by said mobile device to produce an error corrected GPS location signal accurate to within a few meters, and a transmitter for transmitting said error corrected GPS location signal from said mobile device during a telephone call.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
